Content of the Examination

The Insulation and Acoustical (C-2) Examination is divided into four major sections:

1. Planning and Estimation (25%)
   - Interpreting plans and specifications
   - Planning
   - Estimating

2. Acoustical (30%)
   - Ceiling grid
   - Acoustical tile and wall panels

3. Insulation (30%)
   - Site preparation and blow-in applications
   - Insulation preparation
   - Batt, rigid board, and radiant barrier applications

4. Safety (15%)
   - Personnel safety
   - Job site safety

*Percentages are approximate*

Test Site Policy

This is a closed-book examination. No reference materials may be used during the examination. All materials brought to the examination site must be left in an unmonitored area at your own risk.

Test Strategy

This is a multiple-choice examination with four choices per question. Examination questions are written to provide only one BEST answer. Some questions require mathematical computation. A calculator will be provided.

There is no penalty for guessing. If you are unsure about a particular question, it is better to try to answer the question than to leave the question blank.

Plenty of time is provided to answer all examination questions, so be sure to read each question and its four choices completely and carefully before selecting the BEST possible answer to the question.
Sample Questions

Below are three typical examination questions. The correct answer is underlined.

1. What is the BEST tool to use to locate wood framing in a wall system for a retrofit insulation job?
   a. Plumb bob
   b. Stud finder
   c. Tape measure
   d. Rubber hammer

2. What length of ceiling wire should be installed for a 10-foot suspended ceiling if the roof deck is at 20 feet?
   a. 20'
   b. 16'
   c. 12'
   d. 10'

3. A contractor is bidding on a job for a 30' high, 60' x 100' metal building. It will be insulated with rigid board in both the ceiling and walls at a cost of $1.10/sq. ft. How much should be budgeted for insulation costs, assuming 5% waste?
   a. $11,088
   b. $13,860
   c. $17,160
   d. $18,018

*All questions are written and reviewed by licensed contractors who are actively working in the trade*
