

CONTRACTORS STATE LICENSE BOARD LICENSE EXAMINATION STUDY GUIDE

CONSTRUCTION ZONE TRAFFIC CONTROL (C-31)

Content of the Examination

The Construction Zone Traffic Control (C-31) Examination is divided into five major sections:

1. Planning and Estimating (18%)

- Designing traffic control plans
- Reading and evaluating plans to determine the scope of work
- Evaluating compliance with California Manual on Uniform Traffic Control Devices (MUTCD) and other regulations
- Estimating material, equipment, and labor costs

2. Notifications and Coordination (11%)

- Verifying permits for traffic control projects
- Notifying the public and the appropriate agencies regarding traffic control
- Coordinate with other agencies and contractors for traffic control projects

3. Traffic Control Installation (51%)

- Developing installation plans with contingencies
- Installing traffic control devices
- Procedures for flagging
- Inspecting and maintaining traffic control zones
- Removing traffic control devices
- Implementing lane closures

4. Transportation and Training (8%)

- Load, transport, and unload materials and equipment
- Training flaggers and employees in traffic control

5. Safety (12%)

- Personal protective equipment
- Evaluating traffic control equipment
- Implementing safe environments and emergency procedures

Percentages are approximate

Test Policy

This is a closed-book examination. No reference materials may be used during the examination.

Test Strategy

This is a multiple-choice examination with four choices per question. Examination questions are written to provide only one BEST answer. Some questions require mathematical computation. A calculator will be provided.

There is no penalty for guessing. If you are unsure about a particular question, it is better to try to answer the question than to leave the question blank.

Plenty of time is provided to answer all examination questions, so be sure to read each question and its four choices completely and carefully before selecting the BEST possible answer to the question.

Sample Questions

Below are three typical examination questions.
The correct answer is marked with an asterisk (*).

- 205 traffic cones are required for a lane closure. The cost of renting one cone is \$0.52 per day. What would be the rental cost for 8 days?
 - \$106.60
 - \$800.00
 - \$852.80*
 - \$960.00
- A portable changeable message sign must display at least how many characters per line?
 - 10
 - 9
 - 8
 - 7*
- A pilot vehicle is being used on a traffic control project. Cyclists need to get through the closure. What is the BEST option for the C-31 contractor?
 - Let all of the cyclists go ahead of traffic.
 - Tell the cyclists to find an alternate route.
 - Allow the cyclists to proceed at their own risk without an escort, as long as they go against traffic to increase their visibility.
 - It depends on the conditions and discussions with the inspector and prime contractor.*

All questions are written and reviewed by licensed contractors who are actively working in the trade
