   - Finishing
   - Mobilization

4. Field Erection (19%)
   - Placing
   - Connecting

5. Safety (24%)
   - Personnel safety
   - Shop and site safety

*Percentages are approximate*

Test Site Policy

This is a closed-book examination. No reference materials may be used during the examination. All materials brought to the examination site must be left in an unmonitored area at your own risk.

Test Strategy

This is a multiple-choice examination with four choices per question. Examination questions are written to provide only one BEST answer. Some questions require mathematical computation. A calculator will be provided.

There is no penalty for guessing. If you are unsure about a particular question, it is better to try to answer the question than to leave the question blank.

Plenty of time is provided to answer all examination questions, so be sure to read each question and its four choices completely and carefully before selecting the BEST possible answer to the question.
Sample Questions

Below are three typical examination questions. The correct answer is underlined.

1. If a crane company charges $250 per hour of operation, how much will a crane cost for four days of 8 hours each day and one day of 4 hours, in addition to 4 hours of travel time?
   a. $32,000
   b. $10,000
   c. $8,000
   d. $4,000

2. Where are the requirements for the completion of welding inspections typically found?
   a. Architectural cover pages
   b. Cal/OSHA
   c. California Building Code
   d. Engineer’s structural specifications

3. Which of the following would be the MOST commonly found in a moment connection?
   a. Base plate
   b. Cap plate
   c. Lintel brace
   d. Continuity plate

*All questions are written and reviewed by licensed contractors who are actively working in the trade*
